

What is Austria?

(for me)

Bruno Buchberger

Research Institute for Symbolic Computation (RISC)
Johannes Kepler University, Linz

What is Europe?
(for me)

What is Europe?

(for me)

punishment-free criticism

What is Europe?

(for me)

punishment-free criticism

= essence of democracy

What is Mathematics? (for me)

punishment-free criticism

= essence of mathematics (including computer science)

= gaining knowledge by critical reasoning

= kernel of science, economy, welfare

Austria's contribution to the digital age

Kurt Gödel 1930 (at age 23):

The first “universal programming language”.

Maybe, the most important invention of 20th century.

Austria's contribution to the digital age

Kurt Gödel 1931 (at age 24):

“Artificial Intelligence” (= the automation of mathematical intelligence)
has no upper bound.

Maybe, the most important prediction for 21st century.

Austria's contribution to the digital age

Austria's mathematics (\supset computer science) today:

Frankly, it is world-famous
but mom said: "Be modest!"

Examples: ... (dangerous) ...

Thank you, "I am from (math) Austria"!

Future Science and Economy

... will be more and more “pure mathematics”.

The public needs fancy new names for this every year like “digitalization”, “artificial intelligence”, “4.0”,

The highest level, however, will always be “natural mathematical intelligence”,
i.e. the capability of free critical creative cultured structured ... thinking.

The Basis for (Austria's) Future

1. Deep and thorough education and culture of “mathematical” thinking for

democracy

science

economy

welfare

humanity

the cosmos

The Basis for (Austria's) Future

2. The appeal of Austria for young talented “creative thinkers”.

This decisive criterion is not yet taken serious in Austria!

My Current Project for Austria (and Europe)

Austrian University in Egypt (AUE)

in the frame of
the “City of Knowledge”

in the frame of
the “New Capital” in Cairo.

The geopolitical idea:

Europa

M E N A Zone

Africa

Europa

Africa

Contribution of Egypt to AUE (Austrian University in Egypt):

real estate,
buildings,
costs of consultancy, teaching.

Contribution of Austrian universities:

academic degrees,
teaching,
consultancy.

Who wants to join?
